SUMMARY

Frontend Web Developer with 4 years of experience in UI slicing, API data integration, and developing responsive interfaces across multiple devices. Proficient in HTML, CSS, JavaScript, TypeScript, React/Next.js, Tailwind CSS. Experienced in implementing UI/UX designs, collaborating with cross-functional teams, and optimizing application performance. Also has a strong interest in UI/UX design and occasionally works on related projects to enhance visual and user experience skills.

WORK EXPERIENCE

Digital Center - *Jakarta, Indonesia*   **Feb 2023 - Present**
Frontend Web Developer

- Develop user interfaces using HTML, CSS, JavaScript, and frameworks such as React/Next.js.
- Integrate backend API data into the frontend interface.
- Implement responsive layouts for desktop, tablet, and mobile.
- Ensure visual consistency and user experience quality across devices.
- Debug and resolve UI issues or errors.
- Collaborate with UI/UX designers, backend developers, and QA teams.
- Apply best practices such as clean code, reusable components, and Git version control.
- Perform basic UI testing to ensure proper functionality.

Zegen Solusi Mandiri - *Jakarta, Indonesia*   **May 2020 - Dec 2022**
Frontend Web Developer

- Develop user interfaces using HTML, CSS, JavaScript, and frameworks such as React/Next.js.
- Integrate backend API data into the frontend interface.
- Implement responsive layouts for desktop, tablet, and mobile.
- Ensure visual consistency and user experience quality across devices.
- Debug and resolve UI issues or errors.
- Collaborate with UI/UX designers, backend developers, and QA teams.
- Apply best practices such as clean code, reusable components, and Git version control.
- Perform basic UI testing to ensure proper functionality.

UI / UX Designer

- Create wireframes, user flows, and prototypes to visualize user journeys.
- Design clean, consistent, and user-friendly interface layouts.
- Conduct usability testing to evaluate design effectiveness.
- Collaborate with frontend and backend teams to ensure design feasibility.
- Iterate designs based on user feedback and team input.

System Analyst

- Gather and analyze user requirements and business processes.
- Create flowcharts, process diagrams, and system diagrams to illustrate workflows.
- Coordinate with developers to ensure requirements are feasible and clearly understood.
- Review and validate developed features to ensure alignment with requirements.

EDUCATION

University Siber Asia   **Present**
Information Systems

SMK Wikrama Bogor   **2017 -2020**
Vocational High School **— Software Engineering**

TECHNICAL SKILLS

- Proficient in HTML, CSS, JavaScript, React.js, Redux, Bootstrap, Tailwind CSS, and NPM.
- Experienced with version control systems such as Git.
- Skilled in creating and maintaining reusable code components and frontend architectures.
- Capable of working effectively both independently and within cross-functional teams.
- UI/UX design skills using Figma, including wireframing, prototyping, and basic user interface design.
